A NEW VISION *of well-being*

For over 60 years, HENRI has been sublimating interior spaces by integrating intelligent, connected systems. Each of our projects is a unique creation, subtly integrated into the harmony of the space and entirely designed for the well-being of our clients.

Lighting, music, video, cinema, internet, security... We design technological solutions to meet every day needs. A new art of living that combines elegance with extreme simplicity of use.

A PASSION FOR EXCELLENCE

Perfectionist and meticulous, we constantly challenge ourselves to offer you reliable, durable and upgradeable installations that meet all your requirements.

THE ART OF SIMPLICITY

In our view, technology must serve the art of living. Designed with your comfort in mind, our systems always offer fluid, intuitive and extremely simple operation.

A TASTE FOR ELEGANCE

We work hand in hand with leading interior designers to integrate our solutions with discretion and refinement into your interior.

A HERITAGE *of excellence*

Founded in Paris in 1961 by Henri Sherman, HENRI has cultivated a passion for excellence for 3 generations. Today, as in the past, we are guided by the same ambitions: the relentless pursuit of the highest quality, unwavering standards and deep respect for our clients.

BESPOKE *solutions*

Thanks to our cutting-edge technological solutions,
we create new lifestyle experiences that combine extreme
refinement with the utmost simplicity.

LIGHTING

THE MAGIC OF LIGHT

Essential to your well-being, light is the finishing touch that brings your interior architecture to life and enhances its personality. Working in close collaboration with your lighting designer, we create bespoke lighting atmospheres, subtly adapted to each of your spaces and uses. Accentuate a work of art, dramatize your reception areas, illuminate the dinner table, subdue the atmosphere of your movie nights... Control all this and much more centrally and easily.

BLINDS AND CURTAINS

THE DEMAND FOR PERFECTION

The finishing touch to your home décor, blinds and curtains bring warmth and refinement to your interior. With your interior designer, we design a la carte models for an entirely personalized result, with no limits other than those of your imagination. Silent and extremely precise, our automation solutions are also perfectly simple to use: creating the ideal atmosphere at any time has never been easier.

MUSIC

A VIRTUOSO INSTALLATION

To provide you with an incomparable sound experience, we select the most appropriate equipment and design bespoke solutions for each area of your home: at any time and in any room, you can enjoy high-fidelity sound and control your music with extreme simplicity. And if quality is paramount to us, so is aesthetics. Invisible, discreet, or coordinated with your interior design... We work in collaboration with your interior designer to integrate our solutions harmoniously into your décor.

CONNECTIVITY

A HIGH-PERFORMANCE NETWORK

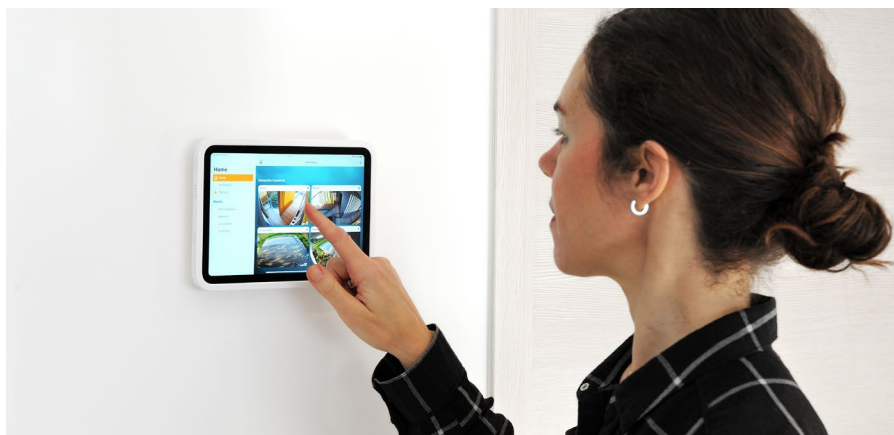

In today's digital age, a quality connection is essential at home. We design and install reliable, durable and scalable computer networks, so you can take full advantage of the high bandwidth provided by your operator. Regardless of the number of devices connected, the number of people using them simultaneously, or the size of your home, you benefit from a high-performance network, whether wired or wireless: everyone can enjoy their uses seamlessly, anywhere, anytime.

SECURITY

A GUARANTEE OF PEACE OF MIND

The security of your family, your home and your possessions is a top priority. We analyze your premises in depth, select reliable equipment and design state-of-the-art surveillance systems to ensure your protection. Alarms, video surveillance, access control solutions... We master all the tools to give you peace of mind, whether you're at home or at a distance.

ELECTRICITY

EXCEPTIONAL EXPERTISE

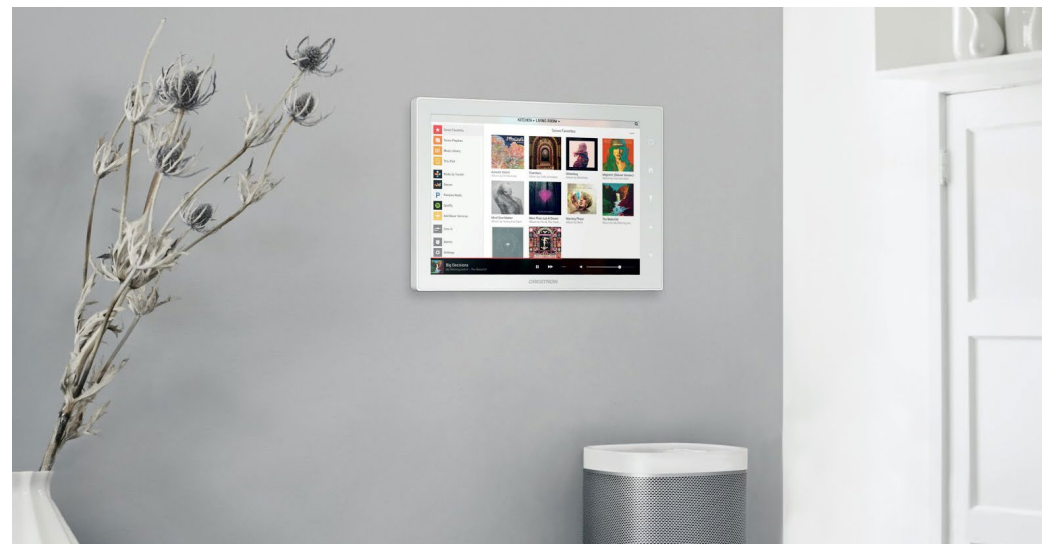

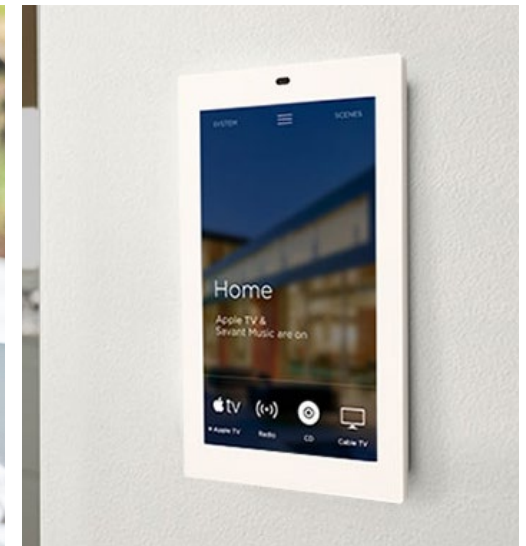

A state-of-the-art electrical installation is essential for the proper functioning and reliability of your technological solutions. Experts not only in electricity, but also in home automation and audiovisual systems, we can handle even the most complex high and low voltage projects. We select only top-quality equipment and pay the utmost attention to the aesthetic integration of our installations. We provide complete support for your projects, guaranteeing you peace of mind, expertise and quality.

REFINED FINISHES

AN EXPERIENCE THAT REFLECTS YOU

We believe that technology should be at the service of the art of living. For us, simplicity of use remains an absolute priority. For each project, our design office conducts an in-depth analysis based on the needs, desires and lifestyles of our clients. The ergonomics and design of our solutions are adapted down to the smallest detail to the place and the user, to offer you simple, fluid uses that are fully in line with your wishes.

EXCEPTIONNAL *projects*

Each of Maison HENRI's project is a unique creation, tailor-made for the comfort of our clients, and built with all our expertise.

VILLA BABOU

On the shores of a Mediterranean island lies a secret paradise: Villa Babou.
For this extraordinary place, HENRI has imagined solutions for the well-being and serenity of its owners.

GRAND PRIX HOUSE

Behind the doors of this spectacular contemporary property lies a world of luxury and refinement. Technology is present down to the smallest detail, but has the elegance to blend in perfectly with the aesthetics of the premises. An ambitious challenge, and undoubtedly one of HENRI's finest projects to date.

HOTEL CHEVAL BLANC COURCHEVEL

For the past 10 years, Maison HENRI has accompanied the gradual renovation of this exceptional hotel, integrating technological solutions that are as sophisticated as they are intuitive.
