

PAR EXCELLENCE

NEW YORK

"Finding beauty is a lifelong passion and finding craftsmen to execute that vision is always a challenge. Par Excellence exceeds in every way!"

- Tony Ingrao

Révélations Collection

Revealed at Le Grand Palais, Paris

2025, May 21>25

For this project, Ingrao drew inspiration from the Grand Palais itself—specifically its sweeping Art Nouveau architecture, rich in organic forms and allusions to nature.

The scenography concept is rooted in the spirit of spring: fresh, vibrant, and alive with a sense of renewal. Ingrao's design evokes the sensation of blooming gardens under breezy clouds, creating an ethereal, almost heavenly atmosphere that harmonizes with the historic architecture while introducing a modern, dreamlike energy.

The space celebrates the essence of French craftsmanship: innovation grounded in tradition, exquisite materials, forward-thinking creativity, and an obsessive attention to detail. It was conceived not merely as a showcase, but as a stage upon which artisans could fully express their mastery and push the boundaries of their techniques.

The collection features a curated selection of bespoke elements: a sculptural bar, refined screens, a game table, a set of armchairs, a loveseat, a singular coffee table, and elegant flower-shaped pendant lights.

Mural panels, richly textured and artfully composed, reinforce the naturalistic theme, blending imagery of blossoms and atmospheric vistas. Each piece contributes to a cohesive narrative of excellence, craftsmanship, and timeless beauty.

Through this collaboration, Tony Ingrao and Par Excellence reaffirm the enduring vitality of French decorative arts, presenting a vision that is both profoundly rooted in history and fearlessly attuned to the future.
